

NVWS-X6

NIGHT VISION WEAPON SIGHT

Description

NVWS-X4 is a Single Tube X6 magnification Night Vision Weapon Sight. It is intended as Medium to Long ranges Night Weapon sight, Surveillance and Fire Control Observation.

NVWS-X4 utilizes Generation II Premium or Gen III High Performance Image Intensifier Tube with integrated power supply, which provides Automatic Brightness Control (ABC) and Bright Source Protection (BSP) to guard against exposure to high levels of light.

Lightweight, ridged and well balanced, NVWS-X4 incorporates illuminated reticule with windage and elevation adjustments.

System Features

- Lightweight, Rugged, Humidity Protected
- NBC compatible
- Weapon mounted-Rifle scope
- Low battery indicator
- Variable reticule brightness
- Laser designators compatible

Mission Dedicated

- Weapon mounted
 - Medium to Long ranges Rifle Sight
 - Laser designators compatible
 - Various types of reticules optional
